POND TREATMENTS

Effective, Industry Tested Treatments For Your Pond!

DECHLORINATOR

One of the most concentrated dechlorinators in the industry. Also destroys chloramines, detoxifies heavy metals and buffers pH.

DEFOAMER

Concentrated formula quickly eliminates problem causing foam in koi ponds, water gardens, & fountains. Food-grade formula makes it very safe.

WATER CONDITIONER ALL-IN-ONE

Removes ammonia/chlorine/chloramines, detoxifies heavy metals, adds both electrolytes & slime coat.

BARLEY STRAW EXTRACT

Derived from natural barley straw; helps to maintain water clarity.

WATER CLARIFIER FLOCCULANT

Clears cloudy water quickly of organic & inorganic particles, causes particles to settle in pond.

POND BALANCE

INTERPET since 1986

Reduces Stringy Organic Debris in Ponds / Streams

Pond Balance is a widely accepted pond treatment for reducing organic debris. Unbalanced pond conditions may contribute to excess organic debris in ponds, streams, pump intakes, and filters.

Pond Balance keeps certain nutrients at bay. This helps provide a healthy and beautiful pond without harm to plants, fish, or bacteria.

*Ideal for
Landscapers
& Pond
Professionals*

- Multi-dose product
- Not temperature sensitive
- For best results, instructions should be followed closely
- After treatment - water may temporarily turn milky white, this is harmless
- When pond is balanced, treat pond monthly

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
8750	Pond Balance	600 (3 times)	6	29.98
8751	Pond Balance	1200 (3 times)	6	39.98

- Heavy duty 304 stainless steel for long life
- Does not restrict water flow of your pump
- 17' power cord with in-line transformer
- 2" inlet / outlet (MPT)

- Polished stainless steel chamber = 30% more UV reflection
- High quality quartz sleeve/high output Phillips UV lamps (9000 hour lamp life)
- High flow rates possible due to high output lamps/large diameter chamber
- LED warning system indicates when unit needs service

FMCV-2	Flow Meter	259.98

NORUS: SUBMERSIBLE PUMPS

ShinMaywa®

SHINMAYWA

HIGH EFFICIENCY MOTOR

Industry leading Class E insulation for long life & low operating cost

SEAMLESS CASING

Seamless design provides less chance for corrosion

AIR FILLED MOTOR

Environmentally safe and provides lower average operating temperature

SEAL EXTENDER

Proprietary design cools seal surface more efficiently than standard seal designs

CABLE ENTRY

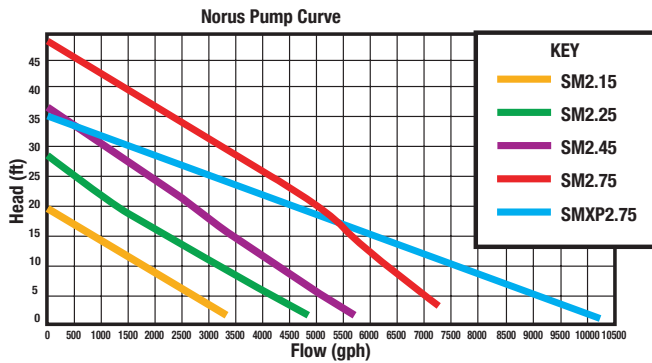

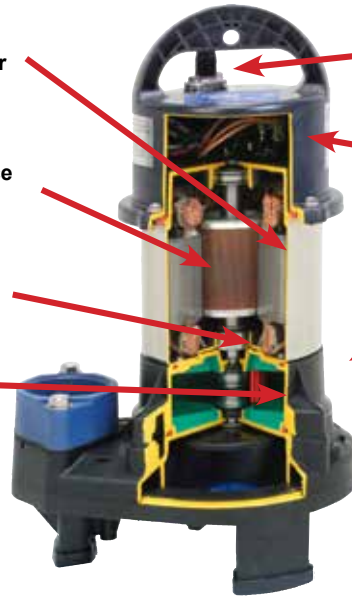

Anti-wicking design prevents water from entering motor housing if cable gets damaged

THERMAL OVERLOAD

Prevents motor from overheating due to locked rotor or under voltage

O-RINGS

New stator o-ring design provides 250% more sealing surface

SEQUENCE® MODEL 1000 SERIES

• The Classic!

The model 1000 series has set the standard by which all others are measured

- This series is a perfect blend of medium pressure and ample flow for the majority of ponds
- Motor is totally enclosed, fan-cooled for durability. 115V or 230V
- Supplied with an 8-foot, 115V cordset
- 3 year limited warranty

VIPER SL

Professional Series UVCs

- Viper SL Sterilizers deliver the highest UV output and flow rates at a fraction of the size
- Designed for maximum performance, power, and reliability, these units replace multiple low pressure lamp units
- Viper SL lamp disinfects faster and has greater penetration capability because of its higher intensity

Compact body design creates a small footprint making the **Viper SL** easy to handle, install and maintain

ULTRA BIO-MEDIA

- Lightweight tubular bio-media
- Very high surface area
- Superior bacteria adhesion

Part Number	Description	Retail Price
A70012	Ultra Bio Media, one cubic foot (8.5 lbs.)	89.98

ULTIMA II FILTERS

BACKWASHING

Simply depress and rotate handle to backwash filter

BLOWER NOT NEEDED

Internal jets allow for efficient cleaning of the filter media.

**30000 & 60000
Side Mounted Valve**

THE ULTIMA II® DIFFERENCE: Unique tubular design protects beneficial bacteria while dislodging unwanted debris.

- Media never needs to be replaced
- Units can be buried in earth up to the valve
- No channeling
- Minutes to backwash
- Pre-seeded with bacteria to quickly start colonization
- Combines both biological and mechanical filtration
- Ultima II Filters are designed for:
 - High flow rates
 - Extreme fish loads
 - Elevated feed rates

New Design

POWERJET: PUMP KITS

- Riser stem & (2) fountainheads standard
- (2) Adjustable valves to control flow
- Easy to use Click Fit connectors
- Pivoting riser stem allows leveling of fountain head
- Pump cage protects PowerJet pump from clogging
- 1350-2900 GPH have Smart Pump Technology (see below)

EACH KIT INCLUDES:

- Pump
- Riser Stem
- (2) Interchangeable fountainheads

3 YEAR WARRANTY

Part Number	Description	GPH	Max. Head	Dimensions (L x W x H)	Watts	Cord Length	Retail Price

POWERCLEAR MULTI

Three-in-One Pump, Filter and UV

3 in 1 PUMP

- Two fountain head options
- Biological filtration through revolutionary bio-brick
- Weight balanced design for maximum stability
- Compact UV guarantees the elimination of green water
- Powerful enough to run a waterfall

3 YEAR WARRANTY

Part Number	Description	Pond Size	UV	Bio-Brick	Retail Price
PT1817	PowerClear Multi 1000	500 Gal.	13 Watt	1	324.98
PT1818	PowerClear Multi 2000	1000 Gal.	13 Watt	2	411.98

BIO-PURE PRESSURE FILTERS

- Multi-stage bio & mechanical filtration
- Meant to be partially buried
- Large foam surface increases filtration & beneficial bacteria
- Unique external pressure indicator shows green when filter is performing properly and shows red when filter cleaning is necessary
- Pressurized filter is ideal for use with waterfall applications
- Offered with & without UVC

2 YEAR WARRANTY

ECO-TWIST PUMPS

NEW!
3 YEAR WARRANTY

- 1 Permanent magnetic motor allows pumps to save energy while promoting reliable performance and durability
- 2 180° rotating adapter allows much range motion for easy placement
- 3 "Pre-filter" cage for the strength and durability. Preventing the pump from being clogged or damaged
- 4 Pull off cage for simple disassembly

- Energy efficient - Over 70% reduction in energy consumption compared to the standard pump
- Includes 1", 1 1/4" and 1 1/2" tubing adapters
- 3 year warranty

BIOPRESS UVC

- Combination of mechanical and biological cleaning, and effective UVC technology
- Ideal for supplying higher elevated waterfalls
- Easy, patented cleaning function using the integrated handle so there is no need to remove the cover
- Quick release provides easy filter opening and closing for maintenance purposes
- Canister portion of the unit can be buried and concealed
- Supplied with all hose connections for fast and trouble free installation

FILTOCLEAR

- Combination of mechanical biological cleaning and effective UVC technology
- Patented easy-clean technology makes filter and UVC maintenance possible in a matter of minutes
- Cleaning and backflush function can be easily operated without removing the cover
- Easy monitoring of the UV Clarifier, filter performance
- Canister portion of the unit can be buried and concealed
- Compact filter size with high filtration capacity – perfect for small places around the pond
- High quality, impact resistant material
- Fittings - 1 1/2", 2", & SCH 40

MICROBE-LIFT PL

SUMMER STAPLE
Animal protein, color enhancers, vitamin C needed during summer

SINKING FOOD
Great for new or stressed fish as it allows them to feed off bottom

COLD WEATHER
Highly digestible cool-water diet with less protein & higher level of fat

MINI PELLETS
Stabilized Vit C promotes tissue development

VARIETY MIX
25% Each: Summer Staple, Fruits / Greens, Growth / Energy & Immunostimulant

HIGH GROWTH & ENERGY
Use in fall to allow for fish to bulk up fast for winter

KOI BIG BITES
Stabilized Vit C and color enhancers for bigger fish

FRUITS & GREENS
Blend apples, apricots, kiwis, mangos, papayas, peaches, pears, broccoli, cabbage, red peppers, peas, tomatoes, zucchini, spinach

All **Microbe-Lift** Legacy foods are a source of live (viable) naturally-occurring microorganism that provide enzymes to help absorb nutrients.

MICROBE-LIFT PL

MICROBE-LIFT

**#1 Selling
Bacterial Pond
Additive on the
Market!**

MICROBE-LIFT PL

Specially formulated for decorative fish ponds, lagoons, & smaller water features – Creates healthy environment, promoting faster fish growth – Reduces ammonia nitrogen levels, dissolves organic sludge, seeds, maintains biological filters & more

Part Number	Description	Case Qty	Retail Price
MICROBE-LIFT PL (LIQUID)			
MLPLP	Pint, small water features	24	19.98
MLPLQ	Quart, fish ponds	12	29.98
MLPLG	Gallon, fish ponds/lagoons	4	71.98

PROFESSIONAL BLEND

Blend of microbes that contain specially formulated strains of bacteria manufactured for use exclusively by landscape and pond professionals.

Part Number	Description	Case Qty	Retail Price
MLPBLXQ	Quart	12	25.98
MLPBLXG	Gallon	4	64.98

SLUDGE AWAY

Rapid and natural sludge / muck removal - works faster in warm temps

Part Number	Description	Case Qty	Retail Price
SLUDGE AWAY (LIQUID)			
MLSAQ	Quart	12	29.98
MLSAG	Gallon	4	73.98

HC

Proprietary formula for large lakes / ponds - reduce odor, break down sludge

Part Number	Description	Case Qty	Retail Price
HC (LIQUID)			
MLHCG	Gallon	4	89.98

SEASONAL MICROBIAL TREATMENTS

Contains cold water bacteria that provide biological activity in water under 40°F, even under ice and snow

Helps jump start pond in spring - Reduces buildup of organic sediment
Include (8) 2 oz packets

Part Number	Description	Case Qty	Retail Price
MLAPQ	Autumn/Winter Prep (Kit), Quart	12	32.98
MLAPG	Autumn/Winter Prep (Kit), Gallon	4	99.98
MLSSC	Spring/Summer Cleaner (2 oz.Pkt)	12	31.98

PL-GEL

Made with same bacteria as Microbe Lift® PL and designed to quickly attach to most media. 80% Reduction in filter start-up time.

Part Number	Description	Case Qty	Retail Price
GEL8	8 oz. Bottle	12	12.98
GEL16	16 oz. Bottle	12	21.98
GEL32	32 oz. Bottle	6	29.98

BLOOM & GROW

- Highly concentrated formula
- Contains micro and macro nutrients
- Essential primary and secondary nutrients
- Nitrate and phosphate free
- This product is not a fertilizer

Specially formulated for aquatic plants of all types to promote larger, brighter and faster blooms as well as healthier and stronger roots

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
BNG16	16 oz.	4800	12	12.98
BNG32	32 oz.	9600	12	20.98
BNGGAL	Gallon	38000	12	62.98

PLANTING MEDIA

Won't Break Down, Float, or Cloud Pond Water!

Part Number	Description	Case Qty	Retail Price
MLCAPM10	Planting Media, 10 lbs.	6	17.98
MLCAPM20	Planting Media, 20 lbs.	3	34.98

MICROBE-LIFT

POND TREATMENT

AQUA XTREME

- Full function, buffered water conditioner
- Ages pond water instantly

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
XTREME16	16 oz.	960	12	12.98
XTREME32	32 oz.	1920	12	22.98

DRY AMMONIA REMOVER

with CLORAM-X

- Removes chlorine
- Destroys Chloramines
- Eliminates ammonia
- Can be combined with antibiotics / anesthetics
- Completely safe for biofilters

**1 oz. Treats
235 Gallons**

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
DAR01	ClorAm-X, 1 lb.	3760	12	22.98
DAR05	ClorAm-X, 5 lbs.	18800	4	92.98

DEFOAMER

- Leaves pond water clean and clear
- Eliminates foam a in seconds

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
DFOAM16	16 oz.	8000	12	11.98
DFOAM32	32 oz.	16000	12	22.98

SALT CRYSTALS

- Reduces threat of parasitic disease in pond water
- Helps maintain healthy pond environment

PSALTSM	2.5 lbs.	100	12	8.98
PSALTMD	5 lbs.	200	6	12.98
PSALTLG	9 lbs.	360	6	15.98

FISH TREATMENTS

STRESS RELIEF

Removes chlorine / chloramines – aids in fish transport, promote healing, skin slime replacement

BSDT

Made with MALACHITE GREEN CHLORIDE – cost effective treatment for multiple diseases

LICE & ANCHORWORM

Removes pollutants for disease-causing organisms, will reduce the number of water-borne pathogens.

Part Number	Size	Case Qty	Retail Price
STRESS RELIEF			
SRP16	16 oz.	12	11.98
SRP32	32 oz.	12	19.98
BROAD SPECTRUM DISEASE TREATMENT			
BSDT16	16 oz.	12	22.98

LICE & ANCHORWORM			
LAWP16	16 oz.	12	21.98
LAWP32	32 oz.	12	35.98

FISH TREATMENTS

PARAZORYNE

Supports fish immune system by driving off the excess parasites. Then they starve without the host.

EFFECTIVE AGAINST THE FOLLOWING PARASITIC DISEASES:

- White spot
- Flukes (gill & skin)
- Oodinium
- Costia
- Trichodina
- Chilodonella

Part Number	Size	Treats (Gallons)	Case Qty	Retail Price
PCON08	8 oz.	590	12	14.98
PCON16	16 oz.	1183	12	22.98
PCON32	32 oz.	2365	12	41.98
PCONG1	1 Gal.	9462	4	139.98

FISH TREATMENTS

SABBACTISUN

Will help to drive pathogenic bacteria off fish and without a host, ultimately results in death of bacteria.

EFFECTIVE AGAINST:

- Bacterial dropsy
- Milky skin
- Bulging eyes
- Mouth rot
- Fungus
- Fin/Tail Rot
- Ulcers
- Raised scales

Part Number	Size	Treats (Gallons)	Case Qty	Retail Price
SCON08	8 oz.	590	12	14.98

77021	6 oz. Flakes	12	8.98

ALGAEFIX

**BEST
SELLER**

**E.P.A.
Registered**

ALGAEFIX

Algae-control for ponds with plants and fish.
Helps control "green water", algae blooms,
blanketweed, and string algae.

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
ALGAEFIX (LIQUID)				
AP169A	8 oz.	2400	12	11.98
AP169B	16 oz.	4800	12	16.98
AP169G	32 oz.	9600	6	28.98
AP169D	64 oz.	19200	6	49.98
AP169C	1 gallon	38400	4	85.98
AP169J	2.5 gallon	96000	2	179.98

Alternative Approach to Algae Control

MICROBIAL ALGAE CLEAN

Microbial Algae Clean is the first bacterial algaecide registered with the E.P.A.. Contains patented bacteria to control green water algae in ponds w/live fish and plants. Bacteria helps establish & maintain a clean pond, free of algae. They also help improve dissolved oxygen levels and reduce noxious odors from the pond.

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
AP269B	16 oz.	4800	12	19.98
AP269G	32 oz.	9600	6	33.98
AP269D	64 oz.	19200	6	61.98
AP269C	1 gallon	38400	4	99.98

TEST KITS

MASTER LIQUID TEST KIT

4 Important Tests:
Ammonia, Nitrite, Phosphate, pH

Part Number	Description	Case Qty	Retail Price
AP164M	Master Liquid Test Kit (6 Bottles)	6	40.98
AP164F	5 in 1 Pond Test Strips (Nitrate, pH, KH, Nitrite, & GH)	6	16.98
AP26	Nitrite Test Kit	24	9.98
AP33D	Ammonia Test Strips	24	17.98

Part Number	Description	Case Qty	Retail Price
AP160	Liquid pH Test Kit	12	8.98
AP63L	Phosphate Test Kit	24	14.98
AP65L	Copper Test Kit	24	11.98
APLR1800	Nitrate Test Kit (90)	24	13.98
APLR8600	Ammonia Test Kit	24	12.98

MISCELLANEOUS POND TREATMENTS

POND SALT
Natural sea salt
to replace
electrolytes

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
POND SALT				
AP156C	1/2 gallon carton	550	6	8.98
AP156	140 oz. jar	1200	4	21.98
pH BALANCING				
AP170B	pH Down, 16 oz.	2400	12	17.98
AP171B	pH Up, 16 oz.	2400	12	17.98

pH DOWN
Makes pond water
more acidic

pH UP
Makes pond water
more alkaline

FISH CARE

Use Pimafix with Melafix to Treat a Wide Range of Fungal Infections...Naturally

- Will not adversely affect the biological filter
- Use when introducing new fish

MELAFIX

- All-natural medication derived from the leaves of Melaleuca (tea tree)
- Powerful antibacterial properties that treat wound & promote rapid tissue healing
- Tissue regeneration in koi/goldfish can usually be seen in the first 4 days
- Treats ulcers, open wounds, eye cloud, mouth fungus and fin & tail rot
- Rapidly repairs damaged fins
- Safe for aquatic plants

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
MELAFIX (LIQUID)				
AP176B	16 oz.	4800	12	18.98
AP176C	64 oz.	9600	4	62.98

PIMAFIX

- All-natural medication derived from the leaves of Pimenta racemosa (West Indian Bay Tree)
- Powerful antifungal/antibacterial properties due to multiple natural active compounds
- All-natural formula rapidly treats fungal infections on body and fins of pond fish
- Pimafix has been formulated to work in combination with Melafix to enhance effectiveness against fish diseases

SPRING & FALL PREP

- Replenishes winter bacteria loss during spring startup
- Accelerates decomposition of leaves, twigs & sediment
- Easy to use pre-measured water soluble packets
- Works when water temps are 40° - 50° F

Cold water natural bacteria with barley

VANISH PLUS

VANISH PLUS

Immediately removes chlorine, chloramine, & heavy metals often present in city water supplies – Adds slime coat protectant to the water to help fish heal wounds & abrasions and protects them in times of stress.

Part Number	Description	Treats (Gal.)	Case Qty	Retail Price
CC015-16	16 oz.	3200	12	16.98
CC015-32	32 oz.	6400	6	24.98
CC015-1G	1 Gallon	25600	4	79.98

VANISH DRY

VANISH

Immediately removes chlorine to prevent gill damage to fish – Use when performing water changes or setting up a new pond.

Part Number	Description	Treats (Gal.)	Case Qty	Retail Price
CC013-8	8 oz.	8000	12	12.98
CC013-2	2 lbs.	16000	6	29.98
CC013-25	25 lbs.			269.98

POND TINT

POND TINT

Non-toxic pond dye designed to help keep water sparkling clean and cool – Provides protective shield for pond water to prevent clarity problems in water gardens, ponds, & lakes.

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
CC064-16	16 oz. Blue	16000	12	13.98
CC085-16	16 oz. Nite	16000	12	13.98

THRIVE

THRIVE

Slow release pellets feed potted aquatic plants all season long.

Part Number	Description	Case Qty	Retail Price
CC017-30	30 Tab.	12	7.98
CC017-60	60 Tab.	12	14.98
CC017-200	200 Tab.		37.98

PHUSION & PH GUARD

pHusion

Fuses pH lowering qualities with natural electrolytic supplements to safely lower pH levels in pond water.

pH GUARD

Prevents wide pH swing sustains pH at safe levels safe for all aquatic plants & fish.

Part Number	Description	Treats (Gal.)	Case Qty	Retail Price
CC011-2	pH Guard, 2 lbs.	8000	6	16.98
CC025-2	pHusion, 2 lbs.	32000	6	19.98

RAPICLEAR

RAPICLEAR

Designed to clear cloudy, muddled pond water quickly (usually within 1-3 hours depending on the size of the pond) – Quickly restores pond water to a brilliant shine – Suspended particles in water clump together, fall to the bottom of the pond, to be can be vacuumed or removed by filtration.

Part Number	Description	Treats (Gallons)	Case Qty	Retail Price
CC063-16	16 oz.	16000	12	13.98
CC063-32	32 oz.	32000	6	22.98
CC063-1G	1 Gallon	128000	4	74.98

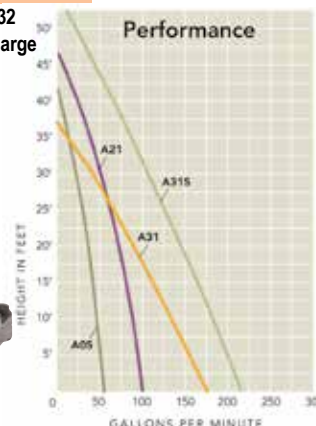

TIDAL WAVE

A-Series Pumps

- Rugged cast-iron & stainless steel construction
- Double silicone carbide mechanical seals
- 32' heavy-duty power cord
- Boxed w/full color label
- Precision manufactured motor
- Thermal overload protection
- Dual-drive bearings
- Vortex impeller

Tidal Wave Pumps deliver the right flow at the right head for the right wattage. Cutting edge design, top quality components deliver years of trouble-free service.

WATERFALL DIFFUSERS

UWD46

UWD23

UWD16

UWD32

- Units have dual 2" inlets
- Fast & easy way to create professional looking waterfalls
- Super strong vertical rib design is nearly indestructible
- Low profile design of only 3 1/2" - easy to conceal
- Load bearing design allows block to be stacked directly onto diffusers

Part Number	Description	Spillway	Rec. Flow (GPH)	Bulkhead	Dimensions (L x W x H)	Retail Price
UWD16	16" Waterfall Diffuser	16"	1000-4000	(2) 2"	16" x 14" x 3.5"	125.98

AXIOM POND SKIMMERS

- Front to back design - pump behind debris net
- Adjustable overflow to adjust finished pond level
- One piece, aluminum framed debris net
- PSA5000/7000/9000 compatible with SETS2 extension tube (optional)

Part Number	Opening	Max. Flow (GPH)	Bulkhead	Dimensions (L x W x H)	Retail Price
PSA5000	6"	5000	(2) 2"	29" x 19" x 21"	468.98
PSA7000	8"	7000	(2) 2"	29" x 19" x 21"	479.98
PSA9000	8"	9000	(2) 2" and (1) 3"	33" x 19" x 23"	582.98
PSA11000	10"	11000	(2) 2" and (1) 3"	33" x 19" x 23"	594.98
PSA57N	Debris Net for PSA5000/7000				54.98
PSA911N	Debris Net for PSA9000/11000				54.98

Part Number	Description	Retail Price
SETS2	24" Ext. Tube for PSA5000/7000/9000 AND PSA3600D (below)	122.98

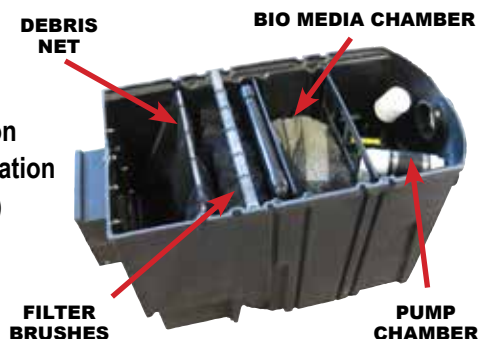

AXIOM POND SKIMMER/FILTER COMBO

AXIOM SERIES

- Combines mechanical / biological filtration
- Bio media compartment for complete filtration
- Use with SETS2 extension tube (optional)

Part Number	Opening	Max. Flow (GPH)	Bulkhead	Dimensions (L x W x H)	Retail Price
PSA3600D	8"	3600	(2) 2" and (1) 3"	33" x 19" x 23"	631.98

PRO SERIES SKIMMERS

- Two chamber design
- Heavy duty debris net
- Matala filter pads

Part Number	Description	Retail Price
-------------	-------------	--------------

REPLACEMENT DEBRIS NET

PMLN	for Mini	37.98
P1LN	for Small	56.98
P2LN	for Large	82.98

24" EXTENSION TUBES

SETS	For Mini/Small	122.98
SETL	For Large	147.98

Part Number	Description	Opening	Max. Flow (GPH)	Square Ft. Rating	Dimensions (L x W x H)	Retail Price
PSM	Mini Skimmer	6"	3000	250	20" x 15" x 19"	371.98
PS1V	Small Skimmer	8"	6000	600	28" x 18" x 20"	559.98
PS2V	Large Skimmer	16"	15000	Over 600	42" x 20" x 30"	925.98
PSMEX	Skimmer for External Pumps	6"	4500	250	20" x 15" x 19"	308.98

SKIMMER EXTENSION TUBES

- Moving skimmer box away from the pond. Makes it appear more natural
- 24" extension tubes are connectable
- Ideal for concrete walls

SKIMMER FOR EXTERNAL PUMPS

- Easily connect to factory installed bulkhead
- Side inlet for bottom drain connection
- Vertically separated, dual chamber design

PRO SERIES AQUA FALLS

- Biological waterfall filters
- Simulated rock lip
- Inlet on EACH side of filter box

- Strong, rugged design
- Liner easy to attach

Simulated Rock Lip: Standard

ULTRAKLEAN™ BIOLOGICAL PRESSURE FILTER

3 YEAR WARRANTY

ENLARGED TO SHOW TEXTURE

- Backwash unit in less than 5 minutes without opening canister
- Provides optimal filtrations for ponds up to 3500 gallons
- Traps dirt and debris and eliminates green water
- Indicator light signals when time to backwash
- Sponge free design minimizes maintenance
- Integrated electronic bulb-saver option
- Guaranteed to clear water
- UV On/Off indication light

UltraKlean™ Biomedia is used for efficient biological and mechanical filtration.

IONGEN™ SYSTEM (2ND GENERATION)

Aquascape™
Consumer Products

For Ponds Up to
25,000 Gallons

(EPA Reg: #83739-1)

- Helps to control unsightly algae without chemicals
- Energy efficient electronic water clarifier (less than \$1.00/month)
- Easy to install
- Safe for fish & plants, non-toxic to animals
- Complete with electronic control panel, transformer, flow chamber probe, and copper test kit
- Probe lasts 1-3 seasons

Part Number	Description	Max. Flow (GPH)	Max. Pond Volume	Inlet/Outlet Size	Retail Price
95027	IonGen™ (2nd Generation)	4800	25000	2"	395.98

96019	KH/Alkalinity Test Kit				19.98

SPILLWAY BOWL, SPILLWAY BASIN AND KIT

Spillway Basin 40"

An ideal stand alone over flowing water feature that will create a beautiful, tranquil focal point in almost any setting.

Spillway Bowl 32"

Creates a beautiful spilling water feature that can be added to any pond or pool creating an instant waterfall.

Spillway Bowl and Basin Landscape Fountain Kit

Pump Included: Ultra 2000 Pond Pump

Pipe Included: Pre-Cut Kink-Free 3/4" x 12.5"

- Unique and beautiful patina finish
- Light weight and easy to install
- Made from durable GFRC

Spillway Bowl Stand

Use when installing Spillway Bowls or Basins. The Spillway Bowl Stand creates the ideal elevation between Spillway Bowls.

Bowl and Basin can be installed as a disappearing water feature or several Spillway Bowls can be linked together for an amazing display.

Part Number	Description	Weight	Retail Price
78204	32" Spillway Bowl	71 lb.	369.98
78205	40" Spillway Basin	141 lb.	539.98
78206	Spillway Bowl Stand	33.5 lb.	109.98
58087	Spillway Kit	380 lb.	1,599.98

ACCESSORIES

Smart Control Plug 82001

- Easy connection to smart phone
- Monitor energy consumption
- 3 outlets allow simple set-up

Koi Krunchies 81000

- Quality natural ingredients

Faux Log Fish Cave 78324

- Provides pond fish shelter from predators
- Extremely realistic decorative accent for any size pond

Faux Oak Stump Cover 78259

- Great for hiding outdoor electrical outlets
- Can also be used as a decorative garden accent or seat

Part Number	Description	Dimensions (L x W x H)	Retail Price
82001	Smart Control Plug	6" x 1.5" x 5.5"	59.98
81000	Koi Krunchies	14.1 oz / 400 g	14.98
78324	Faux Log Fish Cave	19" x 12" x 10"	129.98

PB2354	Extension for PB1168	—	Height: 22"	139.98
PB1977	Extension for PB1175	—	Height: 48"	307.98

PRO SERIES: ECOBLOX

EASY-to-ASSEMBLE DESIGN
Slide Lock Connection System

Holds 3X More Water than Traditional Gravel Basins

- 1/2" x 3/4" Openings
- 8 panel construction for exceptional strength

Part Number	Gallon Capacity	Dimensions (L x W x H)	Retail Price
ECOBLOX	31.5	27" x 16" x 17.5"	67.98

RES-CUBES

Res Cubes

Pump Vault

- Reduce rock tonnage
- Less rock required
- Reduce install time
- Labor savings
- Increase water volume
- Dig smaller reservoir
- Gallon Capacity: 11.5

Increased Water Capacity!

WATER CAPACITY
from 40% using Rock
to 90% using Res-Cubes!

Part Number	Dimensions (L x W x H)	Retail Price
JAFRC	19" x 13" x 11"	30.98

PUMP VAULTS

PUMP VAULTS: FOUR SIZES NOW AVAILABLE

- Mini - 3000 GPH Max Flow
- Medium - 10000 GPH Max Flow
- Small - 6000 GPH Max Flow
- Large - 15000 GPH Max Flow

EXTENSIONS: TWO SIZES NOW AVAILABLE

- Allows for deeper reservoirs
- Multiple extensions can be used if needed

Part Number	Description	Max. Flow (GPH)	Dimensions (L x W x H)	Retail Price
JAFV	Large Vault	15000	24" x 24" x 32"	457.98

The most versatile and complete solution for aerated bottom drains. Features sweep bottom design to eliminate trapping debris, slanted air dome/high quality air diffuser with internal check valve function.

Available in 3" & 4" Models

EASY PRO BOTTOM DRAINS

- Both models have dual rubber gaskets and six stainless screws for tight penetration through liner
- BDA has 1/2" barbed fitting - Airflow: 5 to 1.5CFM
- Uses 3" schedule 40 PVC

- Heavy duty roto-molded design offers superior strength
- Welded, threaded inlet allows for easy connection to 3" OR 4" pipe (male adapter not included)
- 16 stainless screws securely attach liner ring to base

ARDL	1400-10000 GPH Large • 1 1/2" - 4"	192.98
D14ARK	1400-10000 GPH Large • 1 1/2" - 4" with 9" diffuser	429.98

BOTTOM-DRAW DISC

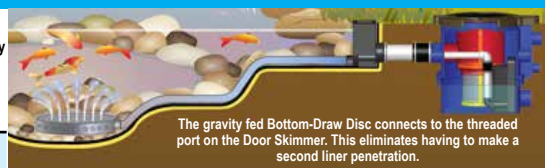

CD1

Large Diameter Disc

Allows rock placements over the top and sides which makes hiding the Bottom-Draw Disc easy
• Max GPM: 15 • Connection: 1 1/2" • Diameter: 16 1/2"

Bottom-Draws remove debris from the bottom of the pond and help replace stagnant water with healthy, oxygenated water.

Part Number	Retail Price
CD1	260.98

The gravity fed Bottom-Draw Disc connects to the threaded port on the Door Skimmer. This eliminates having to make a second liner penetration.

NEXUS FILTER SYSTEMS

nexus

Multi-award winning filter systems

HOW THE NEXUS® FILTER WORKS

The mechanically clean water passes to the outside chamber of the nexus where the K1 Media moving bed is located for biological treatment prior to being returned to the pond.

At this stage, biological breakdown occurs through different strains of bacteria and filter feeders living on the protected surface area of each piece of the K1 Media. These bacteria convert Ammonia and Nitrite into less harmful Nitrate.

Water from the pond enters the nexus via the inlet into the inner chamber which works as a vortex allowing larger solids to settle out.

Water then passes through the grills in the stainless steel "Eazy" filter, where the finer particles are removed at the mechanical stage of filtration, thanks to the static bed of our award winning K1® Micro filter media.

MODEL: 220

K1MICRO BEAD

EVOLUTION
AQUA
INNOVATION IN WATER

K1MicroBead

NEW RANGE OF PRESSURISED FILTER SYSTEMS

- Uses K1Micro filter media for dramatically improved biological filtration compared to using beads
- Multi-port valve and blower included with all models
- Blower used during cleaning cycle
- Large clear viewing lid on top of the filter
- Improved flow through K1Micro filter media
- 6 sizes of filter systems available, 15", 18", 20", 24", 30" and 36"

DIFFUSER KITS

Matala®

- Perforated I-shaped slits keep disc clean
- Open when air flow is present
- Close when air flow stops
- Lowest back pressure in the market
- Allows airpump to operate efficiently
- Hollow base to be filled with sand

These air disc diffusers and weighted bases are very easy to install and the best way to complete your aeration system. Our rubber membrane disc diffusers are the best on the market. They are made of high quality EPDM rubber for use in the waste water treatment industry. They are very suitable for the aquaculture and water garden industries.

SURFACE AERATORS

High Oxygen Transfer Aerators

- New to our lineup
- Highly efficient design
- UPS Shippable

Kasco pond aerators dramatically agitate high volumes of water at the surface to maximize exposure of water to air for gas exchange.

Surface aerators are typically selected when decorative fountain pattern is not necessary nor desired.

Evolution Series Floating Aerating Fountains Include:

AQUATIC RAKES

Deluxe Lake Rake

- This 36" wide aluminum rake comes with a two piece, 11', rustproof, powder coated aluminum handle; detachable polyethylene float and 20' length of 5/16" nylon rope. Use to skim floating vegetation and algae from the pond surface or remove float to use on pond bottom.
- Strong and lightweight aluminum construction
- Two 5 1/2" heavy duty, well constructed aluminum powder coated handles with permanent 5" vinyl grip
- 36" aluminum head with 4" teeth
- 30" removable styrene float for shoreline cleanup

Weed Rake

- No need to worry which side lands up when throw this rake out into the pond as there are teeth on both sides
- 17 - 3" long teeth on each side of the rake and a baked on, powder coat finish with 25' of rope

Weed Cutter

- 28" wide aquatic weed cutter makes short work of cleaning up weed infested beaches and shorelines
- The reversible, double sided, serrated blade quickly cuts through even the thickest weeds
- The 11' long, two piece handle disassembles for easy storage
- Rust proof aluminum construction

ALGAECIDES FOR LARGE PONDS & LAKES

Lake Management / Algae Control

GreenCleanPRO

- Designed for use in lakes, ponds, and other large bodies of water
- Works through powerful oxidation reaction when added to pond water surface
- Destroys algae cell membranes to provide control of algae
- No water restrictions
- Biogrades completely
- Fast acting

Safe for fish (trout & koi) as well as plants and other aquatic life when used as directed

Part Number	Description	Case Qty	Retail Price
GCPRO	50 lbs.	6	199.98

570100	6# 24 Packets	1/4 - 6	171.98
570116	24# 96 Packets	1 - 6	537.98

POND CLEAR LIQUID:

Treats 1/4 acre for one month, 2 Year shelf life.

POND CLEAR WATER SOLUBLE PACKETS:

Eliminates need for measuring, costs less than liquids over the course of a full season, save as much as 42%. 5 Year shelf life.

- Available to treat a 1/4 acre for 3 or 6 months.

- Keeps ponds clean and clear all season, naturally
- 100% all natural
- Easy to use

MUCK AWAY™

All-natural way to eliminate mucky bottoms in ponds, beaches, and shorelines. Precision release pellets sink to the bottom and consume up to 5" of muck per year. Consumes muck more effectively than using powder or liquids. 5 Year shelf life. - Available to treat 1,500 sq. ft. of shoreline for 3 or 6 months.

Part Number	Description	Treats Shore Line	Retail Price
570108	8 scoops - 4 lbs.	75' - 3mos	103.98
570109	16 scoops - 8 lbs.	150' - 3mos	171.98
570124	48 scoops - 24 lbs.	450' - 3mos	399.98

MUCK AWAY™ TOTAL LAKE

These precision pellets are so effective, they can reduce 1-2" of muck per month when dosed correctly. 12 lbs of MuckAway™ TL will treat an entire surface acre regardless of water depth. 100% natural and safe for all aquatic and domestic life. Best used when water temperatures are above 50°F.

- Reduces up to 2" of muck per month
- Perfect for total pond or lake applications
- Concentrated precision pellets consume muck faster
- Safe for all aquatic & domestic life

Part Number	Description	Treats (Acres - Months)	Retail Price
570113	36# MuckAway TL	3	789.98

STOCK TANK DEFENSE:

Improves water quality for fresh, healthy drinking water for livestock, birds, or other wildlife. Keeps stock tanks clean and clear. Treats up to a 150 gallon stock tank for 3 months.

STOCK TANK DEFENSE

- Pre-Measured, no mess tablets
- Dissolves muck and organic waste
- Keeps stock tanks clean and clear

Part Number	Description	Retail Price
200011	Stock Tank Defense, 6 tablets	10.98

ALGAE DEFENSE

Kills Algae Fast

Algae Defense - is a broad spectrum algaecide that works as a quick fix to eliminate algae problems. When water temperatures are at least 60° F, Algae Defense can work at optimum level. Unless steps are taken to reduce the overall nutrients in the pond, multiple applications may be needed for a full season of control. For best results, use with Treatment Booster PLUS.

How to Use: Mix 32 oz of Algae Defense, 4 oz Treatment Booster PLUS and 2 gallons of water in a tank sprayer to treat up to 2,000 sq. ft. Spray algae directly. Only treat up to half of the pond's surface, waiting 10-14 days before treating the second half. In hot weather, or when fish are stressed, treat 1/4 to 1/3 of the pond at a time. For deeper water, place the tank sprayer's tip beneath the water's surface. Always read product label before use.

Water Use Restrictions: None

Other Restrictions: Do NOT use in ponds with koi, goldfish or trout unless carbonate hardness (KH) is above 50 ppm.

Part Number Description

530130 Algae Defense - Treats up to 8,000 sq. ft.

Retail Price

68.98

ULTRA PONDWEED DEFENSE

Broad Spectrum Pondweed Control - Contact Herbicide

Ultra PondWeed Defense - is a broad spectrum aquatic herbicide that works on all pondweeds including submerged, floating and emergent weeds. Ultra PondWeed Defense may also be used for short-term control of duckweed. For best results, use on actively growing plants. Emergent treatments may require additional applications to gain full control. For best results, use with Treatment Booster PLUS.

How to Use: Mix 16 oz of Ultra PondWeed Defense, 4 oz Treatment Booster PLUS and 2 gallons of water in a tank sprayer to treat up to 2,500 sq. ft. Spray target directly. Only treat up to half of the pond's surface, waiting 10-14 days before treating the second half. In hot weather, or when fish are stressed, treat 1/4 to 1/3 of the pond at a time. For deeper water, place the tank sprayer's tip beneath the water's surface. Always read product label before use.

Water Use Restrictions: 3 days drinking, 1 day livestock/domestic animal consumption, 5 day irrigation.

Part Number Description

530144 Ultra Pondweed, 1 quart - Treats up to 5,000 sq. ft

68.98

530154 Ultra Pondweed, 1 gallon - Treats up to 20,000 sq. ft

205.98

Can not be shipped to AK, CA, CT, DC, HI, ME, MI, NJ, NY, Puerto Rico, or WA.

SHORELINE DEFENSE

Broad Spectrum Emergent Weed & Cattail Killer

Shoreline Defense - takes care of persistent emergent weeds, and is perfect for cattails, phragmites and other emergent weeds as it not only kills the foliage, but also kills the roots for long-term control. For best results, use with Treatment Booster PLUS.

How to Use: Mix 8 oz of Shoreline defense, 4 oz of Treatment Booster PLUS and 2 gallons of water in a tank sprayer to treat up to 2,500 sq. ft. Spray only on foliage above the water's surface on a calm day to keep spray contained to target areas. Completely wet foliage surface for best results. Always read product label before use.

Water Use Restrictions: None

Part Number Description

530157 Shoreline Defense, 1 quart - Treats up to 20,000 sq. ft

54.98

530167 Shoreline Defense, 1 gallon - Treats up to 80,000 sq. ft

177.98

Can not be shipped to AK, CA, CT, DC, HI, ME, NJ, NY, Puerto Rico, or WA.

WIPEOUT PONDWEED DEFENSE

Controls Persistent Pond Weeds All Season

WipeOut Pondweed Defense - PondWeed Defense® is an herbicide for management of aquatic vegetation in fresh water ponds, lakes, reservoirs, potable water sources, drainage canals and irrigation canals. Pond Logic® WipeOut™ Aquatic Herbicide contains fluridone, the same active ingredient found in Sonar® A.S. and Avast!® SC Aquatic Herbicide.

How to Use: Mix 3.4 fluid ounces of Pond Logic® WipeOut™ with water in the included container and apply to the pond in several spots from the shoreline. 3.8 fl. oz. treats a 1/8 surface acre pond with an average depth of 4 ft. Always read product label before use.

Water Use Restrictions: 30 day irrigation restriction • Effective herbicide for floating & submerged weeds

Part Number Description

• Helps control duck weed

530250 Pondweed Defense, 4 fl oz - Treats a 1/8 surface acre pond

179.98

530251 Pondweed Defense, 8 fl oz - Treats a 1/4 surface acre pond

339.98

Can not be shipped to AK, CA, CT, DC, HI, ME, NJ, NY, PR, VT, WA or Canada.

TREATMENT BOOSTER PLUS

Part Number Description

530172 Treatment Booster PLUS

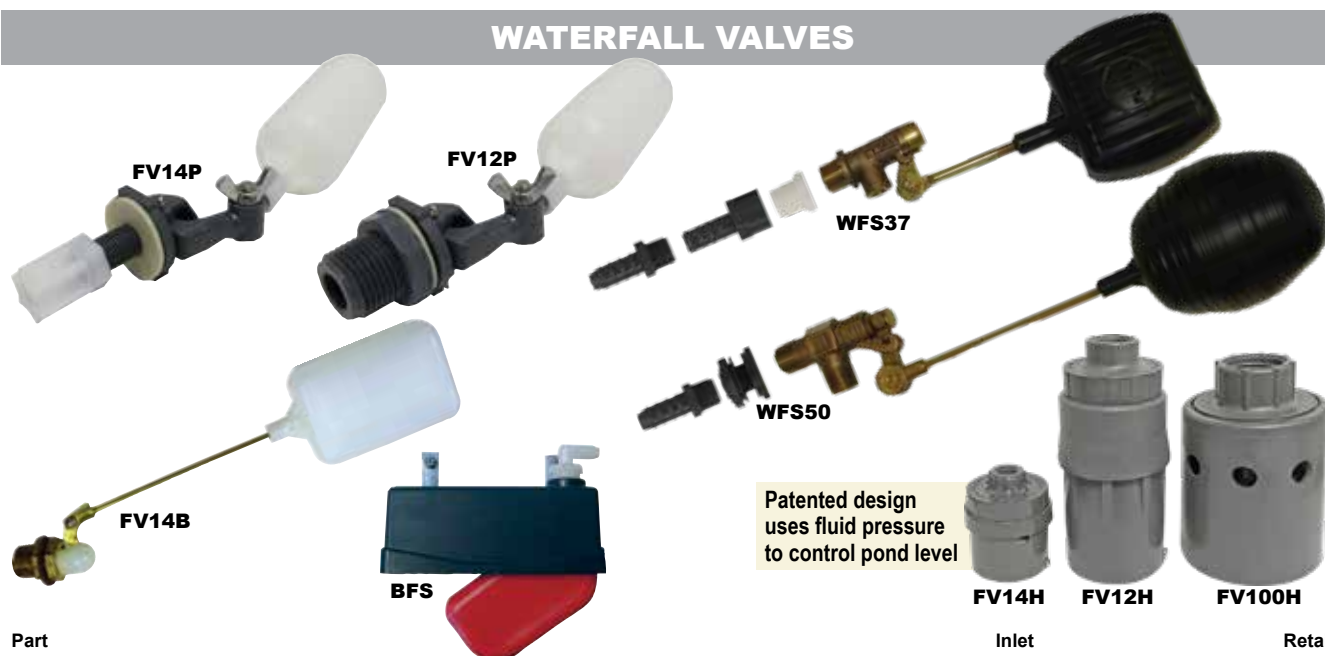

Retail Price

16.98

- Makes above treatments more effective

COBRA FOUNTAIN

ONE OF OUR MOST POPULAR WATER FEATURES!

- The Stainless Steel Fountain comes complete with a submersible fountain pump
- Perfect addition to your garden pond
- Provides relaxing water sound
- Brushed finish

COBRA
Brushed finish fountain.
(Not recommended for bowls)

Part Number	Description	H x W	Retail Price
SEG0926	Cobra	36 x 16"	359.98

(1250 GPH Pump Included)

FOUNTAINS

AVON ADVANTAGE
Polished triple pipe with angled tops.

HUMBER
Brushed stainless steel.
(Not recommended for bowls.)

THAMES
TRIPLE DISH CASCADE
Suitable for pool or pond.

FORTH
Brushed finish, six bowls.
Suitable for 36" reservoirs.

RYTON
This midway cascade is very popular in all locations.

DERWENT
Brushed steel, ideal for any large pond or patio.

MERSEY
Feature suitable for 35" bowl.
Makes soothing deck feature.

TAY
Small elegant triple dish cascade in brushed finish.

WATERWALL SPILLWAYS

Unique Spillways create Water Walls and Weeping Walls

SWS24-316

CWS24-316

- Unique back-angled spout directs water downwards and onto wall below plumbing connection, to eliminate leaks, unwanted humidity and splash
- Modular vertical spillways create water walls and weeping walls of any width in 24-inch increments with seamless water flow between units

Part Number	Description	Flow Rate	Inlet	Dimensions (W x D x H)	Warranty	Retail Price
SWS24-316	24" Stainless Steel WaterWall Spillway	Smooth Surfaces 750-1500 GPH Rough Surfaces 1500-3000 GPH	1 1/2" FIPT	24" x 5.25" x 3.5"	3 Years	382.98
CWS24-316	24" Copper Finish WaterWall Spillway	Smooth Surfaces 750-1500 GPH Rough Surfaces 1500-3000 GPH	1 1/2" FIPT	24" x 5.25" x 3.5"	3 Years	484.98

SPLASH RINGS

CFSR12

CFSR24

CFSR36

- Splash Rings eliminate splash and reduce evaporation, prolonging time between fill ups
- Surround Splash Rings with decorative gravel for a finished look
- Formal Spillways are typically installed in small recirculating systems where controlling water loss is crucial

Part Number	Description	For Use With	Dimensions (W x D x H)	Warranty	Retail Price
CFSR12	Stainless Steel Splash Ring for 12" Spillways	CFBASIN12	16" x 8" x 1.5"	3 Years	208.98

POND LOGIC POND DYE

NATURE'S BLUE:
Provides a true blue color.
Contains full strength acid blue 9 dye.

TWILIGHT BLUE:
Provides a blackish-blue shade to the pond.

Part Number	Description	Special Price
530099	Nature's Blue, 1 quart	22.98
530100	Twilight Blue, 1 quart	22.98

PURE POND - SUBMERSIBLE POND FILTER

Each filter includes 2 levels of mechanical media filtration and 1 level of bio-media filtration, encased in a poly net media bag for your cleaning convenience.

The Pure Pond 1000 will filter ponds up to 1000 gallons.
• 3/4" Barbed Connector

The Pure Pond 2000 will filter ponds up to 2000 gallons.
• 1" Barbed Connector

Part Number	Model	Max Pond Volume	Max Pump	Dimensions (D x H)	Special Price

WATER GARDEN TIPS

CALCULATING LINER SIZE

When choosing liner size for a pond opening, two dimensions are needed:

1. **Length of Liner:** Max length of opening + 2x Depth + 3'
2. **Width of Liner:** Max width of opening + 2x Depth + 3'

Example: Pond Opening is 10' long, 8' wide and 2' deep

Length of liner: $10' + 4' (2' \times 2') + 3' = 17'$

Width of liner: $8' + 4' (2' \times 2') + 3' = 15'$

Liner should be a minimum of 15' x 17'

ESTIMATING ENERGY CONSUMPTION

The following formula will allow you to compute the approximate energy cost of running a pump for 24 hours a day: **Just insert the wattage and calculate.**

$$\boxed{\text{Watts}} \times .876 = \boxed{\text{Annual Cost}} / 12 = \boxed{\text{Monthly Cost}}$$

Example:

1. $750 \text{ Watts} \times .876 = \$657.00 \text{ Annual Cost} / 12 = \$54.75 \text{ Monthly Cost}$
2. $250 \text{ Watts} \times .876 = \$219.00 \text{ Annual Cost} / 12 = \$18.25 \text{ Monthly Cost}$

PUMP FACTS

Horse Power: 1 HP = 746 Watts

Watts = Volts x Amps

Amps = Watts / Volts

P.S.I. = Max Head of Pump / 2.31

Max Head: Maximum height (in feet) that a pump can push water through the correct size of tubing.

WATER GARDEN TIPS (CONTINUED)

POND VOLUME

Being able to calculate the volume of water in a pond is significant.

1. **Best Method:** When filling the pond for the first time - use a water meter
2. **Method 2:** Calculate the length of time needed to fill a 5 gallon container and calculate how long it takes to fill the pond - then compile results.
3. **Method 3 (most common method):** Use the following formula to figure out how many cubic feet are in the pond's opening:

$$\text{Average Length} \times \text{Average Width} \times \text{Average Depth} \times 7.48 = \text{Gallons in Pond}$$

(One cubic foot of water = 7.48 gallons)

VOLUME FOR CIRCULAR POND

$$\text{Radius} \times \text{Radius} \times 3.14 \times \text{Depth} = \text{Cubic Feet}$$

$$\text{Cubic Feet} \times 7.48 = \text{Gallons in Circular Pond}$$

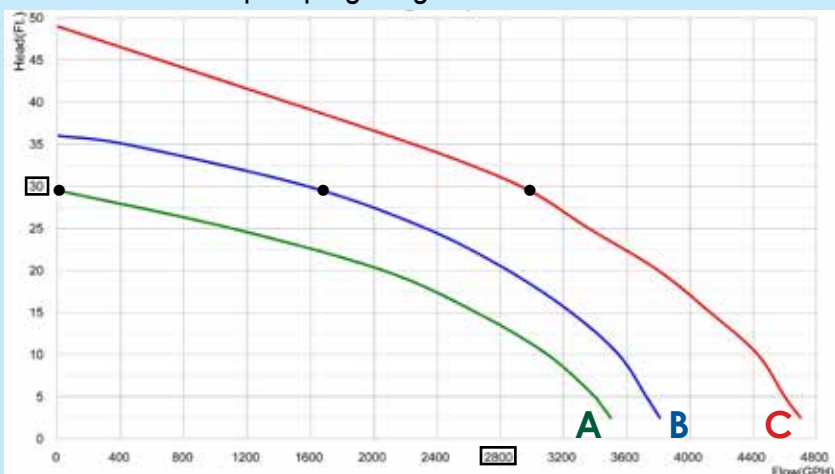

VOLUME FOR CIRCULAR POND

When approximate pond volume is known, selecting a pump becomes easier.
It is best to try to turn pond water over once every hour.

Example: 2500 gallon pond - The pump chosen should perform close to 2500 GPH after considering pumping height and tubing length (Total Dynamic Head - TDH).

PUMP PERFORMANCE CHARTS

Most pump manufacturers provide performance charts to show customers pump results at different pumping heights. See chart below.

Example: Desired flow for project is approximately 2800 GPH at 30' of TDH.

Pump A produces: 0 GPH at 30' of head

Pump B produces: 1600 GPH at 30' of head

Pump C produces: 2800+ GPH at 30' of head - *Best choice for the project!*

WATER GARDEN TIPS (CONTINUED)

TUBING FLOW RATES

Recommended Tubing Diameter

Tubing Size (ID)	Max Flow (GPH)
1/2"	300
3/4"	720
1"	1200
1 1/4"	2000
1 1/2"	3000
2"	4800
2 1/2"	6000
3"	9000
4"	12000

This chart shows maximum flow rates for common sized tubing.

The chart is very helpful when selecting the correct tubing size for a project. If the tubing size chosen is too small, the flow of water from the pump will be restricted.

Note: Tubing size is an inside diameter measurement.

(Flow Rates will vary between different charts - use as a reference)

WEIR FLOW RATES

Most streams and waterfalls start when water flows over a waterfall weir. To help calculate the desired flow of water over the weir, the following information is a useful guide for approximate flow rates.

Minimum Flow	100 GPH per inch of weir width
Average Flow	150 GPH per inch of weir width
High Flow	200 GPH per inch of weir width

Example: 36" Wide Waterfall Weir

Minimum Flow	100 GPH x 36" = 3600 GPH
Average Flow	150 GPH x 36" = 5400 GPH
High Flow	200 GPH x 36" = 7200 GPH

This information is invaluable when deciding what pump to use for a pond project.

WATER GARDEN TIPS (CONTINUED)

PUMPS

Choosing the correct pump size for a water garden project is extremely important. Following is an important factor to consider when reviewing pump choices.

A FACTOR THAT AFFECTS A PUMP'S PERFORMANCE

1. **Head Height:** The elevation that the water is being pumped to, determines the flow rate of the pump. The higher the elevation, the larger the reduction in the flow rate. All pumps have a maximum pumping height. The point at which a pump can no longer move water upward is called the max head.

The example below represents this trait for all water pumps.

**140 GPH at 1'
Strongest Flow**

**at 2'
Reduced Flow**

**at 4'
More Reduced**

**at 6'
Max. Head**

There is a point at which gravity will not allow water to be pumped any higher.

Water is Heavy - a Gallon of Water Weighs Over 8 lbs.

TUBING

ANOTHER IMPORTANT FACTOR THAT AFFECTS A PUMP'S PERFORMANCE

2. **Size of Tubing:** The flow of water through tubing is always affected by friction. The smaller the inner diameter tubing, the more friction loss. In the experiment below, the same 700 GPH pump was run for 10 second intervals; the only difference was the size of the tubing. It became very obvious that choosing the wrong size tubing could very much affect pump performance. This effect on performance is true for any size or type of water pump.

WATER GARDEN TIPS (CONTINUED)

ALGAE IN PONDS

In the most general terms, pond algae can be divided into two types:

SINGLE CELL & STRING ALGAE.

SINGLE CELL ALGAE

Microscopic single cell algae causes pond water to turn a pea soup, green color. They will appear when nutrients, sunlight, and water are present. They are so small that it is not possible to simply "filter" them out of pond water.

METHODS OF REMOVAL

- Flocculants
- UV Clarifiers
- Reduce food source
- Algaecide
- Ben. bacteria & plants help by reducing nutrients needed for algae to survive

STRING / FILAMENTOUS ALGAE

String algae often appears in clear pond water. It attaches itself to rock in streambeds and waterfalls. Also to sides of rocks inside pond. Blanketweed is another form of string algae. It rises to the surface of pond during heat of the day and sinks when water cools.

METHODS OF REMOVAL

- Products that break down organic debris
- Algaecide
- Pond Vacuum
- Brush/Twister

NITROGEN CYCLE IN GARDEN PONDS

Fish can take care of themselves, if pond-keepers take care of water!

8. AQUATIC PLANTS ABSORB NUTRIENTS

1. FISH WASTE & DECOMPOSING DEBRIS

2. AMMONIA

3. BENEFICIAL BACTERIA
(Nitrosomonas sp.)

4. NITRITES

5. BENEFICIAL BACTERIA
(Nitrobacter sp.)

6. NITRATES

7. NITROGEN GAS
Released into
atmosphere.

BAD WATER QUALITY (AMMONIA, NITRITES, & NITRATES)

Bad water quality through **OVERSTOCKING** or **IMPROPER FILTRATION** creates opportunistic environments for disease / pathogens to take their toll on fish in a pond.

AQUATIC WEED SOLUTIONS GUIDE

SUBMERGED WEEDS:

Majority of plant is submerged underwater.
May appear to float on water's surface but roots grow deep into the water.

Eurasian Watermilfoil

Hydrilla/Elodea

Naiad

Bladderwort

Curly Leaf Pondweed

Sago Pondweed

American Pondweed

Coontail

ALGAE/CHARA:

Has no defined root system. Generally floats on the pond's surface in mats although may start at the pond's bottom before floating to the surface. Chara looks like a submerged weed, but can be differentiated by its musky smell.

String Algae

Chara

EMERGENT WEEDS:

Majority of plant is emerged out of the water. Roots and stems may be submerged underwater.
Grow usually around the perimeter of the pond or in shallow areas.

Alligator Weed

Purple Loosestrife

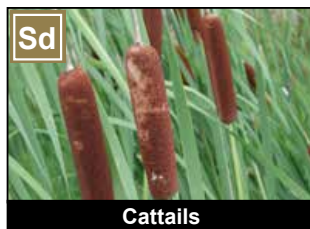

Shoreline Grasses

Creeping Water Primrose

Phragmites

Cattails

Smartweed

FLOATING WEEDS:

Generally found in shallower water, the stem and root system may start at the pond's bottom although not always.
Foliage will be seen floating on the water's surface.

Duckweed

Watermeal

Water Lettuce

Spatterdock

Lily Pads

Water Shield

Water Hyacinth

NOTE:

Aquatic weed solutions guide only lists the best methods to control aquatic weeds. Other weed species may be affected by solutions other than the icons on the weeds above.

Applicant applies for credit and agrees that future purchases shall be pursuant to the terms hereof, the sale documents and the policies of the seller. In the event that it becomes necessary for Water Landscape Supply to file suit to enforce payment, applicant agrees that such suit may be brought in Polk County and seller shall be entitled to court cost and attorney's fees. This contract and all subsequent purchases are deemed made and payable at seller's principal place of business shown above. This credit application begins the process of establishing a credit account with Water Landscape Supply until a credit line has been established. All orders may require payment in advance of shipment or to be delivered on a COD basis. We accept company, cashier's check, or credit card for payment. When applicant ("customer") listed above has a credit line established, payments for shipments as invoiced are due based NET 30 days. Overdue accounts are subject to a late charge at the rate of 1.5% per month or such maximum lesser rate as permitted by law on the overdue balances. Invoices are considered overdue past 30 days. The acceptance on any individual order and terms of payment on all sales and orders are subject to an approval of the Credit Department of Water Landscape Supply.

Before signing, please complete the entire form. The signatures signify agreement with the terms and conditions given by Water Landscape Supply.

WLS SALES TERRITORIES

SHIPPING & ORDER INFORMATION • TERMS AND CONDITIONS

PRICING

All prices shown are suggested only. Consult your sales rep for specific terms and conditions of sale.

PAYMENT

All orders must be paid at time of shipment unless a Net 30 Days Credit Account has been approved by Water Landscape Supply. Forms of payment accepted by Water Landscape Supply are: cash, certified check, C.O.D. and credit card. Customers who qualify for Net 30 Days Credit Accounts must maintain current payment status or all discounts will be nullified and future shipments will be shipped C.O.D. only. C.O.D. orders include a \$10. Water Landscape Supply fee in addition to the C.O.D. fee charged by the freight firm. Payment of C.O.D. orders must be made by certified check or cashier check.

WHILE SUPPLIES LAST - PRICES SHOWN IN RED

Select items have been designated "While Supplies Last!". No other discounts apply. Once inventory is depleted, we will no longer be able to honor the published 2020 prices.

FREIGHT

Free freight for qualifying orders is available for our customers. Please call Water Landscape Supply for further details. Special order and drop ship items do not qualify for freight prepaid programs. Additional fees apply to truck freight deliveries to residential addresses, lift gate service, and courtesy phone call service.

SHORT SHIPMENT

The customer must provide Water Landscape Supply the receipt from the carrier, along with customer's count of product within 72 hours of receipt of merchandise.

NOT RESPONSIBLE FOR PRINTING ERRORS.

DAMAGE IN TRANSIT

Upon receipt of goods, the customer must inspect for damage and add the phrase "not for hidden damages" when signing the receipt for goods. If damage is discovered, the customer must initiate a claim with the shipper.

RESTOCKING FEE

A 15% restocking fee will be charged for all salable returned items.

RETURN POLICY

Returns will only be accepted if identified with a legitimate Return Authorization (RA) number prior to returning product. To receive an RA number, customers must call a Water Landscape Supply representative to explain the nature of the return. The RA number should appear clearly on the outside of each package returned. Credit will be issued once the merchandise is received, inspected and authorized. The customer is responsible for freight costs incurred for the return to Water Landscape Supply.

WARRANTED MERCHANDISE

Defective items may be returned to Water Landscape Supply without a restocking fee during the warranty period of the merchandise. The customer is responsible for returning the items to Water Landscape Supply and for freight costs. Each item must be accompanied by a copy of original retail receipt from the dealer showing the date of purchase. Items will be replaced or repaired at the discretion of Water Landscape Supply.

PRICES SUPERSEDE ALL PREVIOUSLY PUBLISHED PRICES AND ARE SUBJECT TO CHANGE WITHOUT NOTICE.

2020 WLS POND PRODUCTS CATALOG IS NOT FOR ONLINE USE OR PRINTING W/O PERMISSION FROM WLS, INC.
